

Clint Siphelele Mbambo

.NET Developer

Durban, South Africa | 078 933 5971 | clintsiphelelembambo@gmail.com

LinkedIn | Portfolio | GitHub

Professional Summary

.NET Developer with hands-on experience building and deploying production-ready web applications using ASP.NET Core MVC and Web API. Strong focus on secure payment integrations (Paystack), database-driven systems, and real-world business solutions. Experienced across the full development lifecycle—from system design to deployment—with growing expertise in unit testing and code quality practices.

Technical Skills

Languages: C#, SQL, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: ASP.NET Core MVC, ASP.NET Web API, Entity Framework Core

Databases & Cloud: MS SQL Server, Azure SQL

Tools: Git, GitHub, Postman, Bootstrap

Testing: Unit Testing (xUnit), basic mocking concepts

Payments: Paystack API Integration

Key Projects

Cosy Commune Accommodations – Multi-tenant student accommodation platform

Designed and developed a full-stack ASP.NET Core MVC application connecting students and landlords. Implemented property listings, room management, rental tracking, and secure Paystack payments. *Tech Stack:* ASP.NET Core MVC, C#, EF Core, SQL Server, Paystack API.

Isthixo-commerce – Production e-commerce platform

Built an end-to-end e-commerce system handling products, inventory, orders, and checkout. Integrated Paystack payments and deployed a live production system. *Tech Stack:* ASP.NET Core MVC, Web API, C#, SQL Server, Paystack API.

Chowdown Burgers – Custom ERP system

Developed an internal ERP system for inventory, sales tracking, and basic financial reporting. *Tech Stack:* ASP.NET Core MVC, C#, EF Core, SQL Server.

Community Projects & Leadership

Founder & Developer – Local Services Marketplace (Live)

Architected and launched a localized digital marketplace for small businesses. Built service listings, provider registration, booking workflows, and managed deployment and maintenance. Enabled local entrepreneurs to gain online visibility and transact digitally.

Education

Diploma in ICT: Applications Development

Durban University of Technology | 2022 – 2025

Completed three years of study in software development, systems analysis, and database design. Qualification pending completion of remaining final-year modules.

Languages

English (Professional), isiZulu (Native)

Professional Value

Although early in my career, I have delivered multiple live systems used by real businesses and communities. I bring experience across the full software development lifecycle, a strong business mindset, and a commitment to writing maintainable, scalable code.
